WELLNESS PROGRAMME ELEMENTS

Wellness Consultation

At Balance, we kick off with a personalised Wellness Consultation. The Wellness Consultation involves a review of your medical history, lifestyle, diet, and exercise habits. This allows us to create short term wellness goals, which are both manageable and achievable for you.

Wellness Cuisine

Wellness cuisine features low inflammatory, low allergenic and low GI dishes, dispelling the myth that eating healthy means depriving yourself of the pleasure of a good meal. Raw juices and herbal infusions are full of nutrients and medicinal properties.

Wellness Therapies

At Balance, we offer healing Wellness therapies from Thailand, India, Tibet, Indonesia, and the West. This is important because integrative Wellness requires the use of several therapeutic modalities.

Yoga

Just a few minutes of practice at the end of a long day can help stretch and relax sore muscles. Practiced regularly, yoga can be a powerful way to relieve anxiety and cope with everyday stress. Over time, it also can transform your body, building stronger muscles while it improves flexibility and joint mobility.
