## SURFING

Explore a variety of waves while surfing in the Maldives, from peeling, playful rights to down-the-line left barrels. The closest break is accessible from Anantara Veli, while the furthest break is a thirty-minute boat ride away from the resort.

Tropicsurf offers expert guidance, water safety and coaching tips. One of the advantages of surfing from our resorts is the wide range of experiences on offer, which cater to any level, from beginner to advanced surfers.

# SURF SPOTS

Ideally located in the heart of South Male's surf scene, our resort is a few minutes away from a variety of breaks. The peak surf season is from April to October when the winds are from the west and swell is from the south east. From November to March, we organise trips to North Male Atoll where waves are stronger, however swell is less consistent.

## VELI LEFT

Veli Left is a very quick barreling left hander. You can access the wave directly off Veli island and access is complimentary to all guests staying at the resort\*. It is always a quick take off, followed by either pulling into the barrel or racing most of the wave face. It will start working at 1m and hold up to 2.5m. On an average day, you will get 50m rides. It is recommended that only advanced surfers, who are confident with surfing shallow reef, attempt to surf this wave.

*\*Please note that an additional waiver must be signed.*

## NONYAS (QUARTERS)

Nonyas (*Quarters*) is our most frequently surfed break and is located on the outer reef of the Anantara atoll. It is a relatively mellow right hander. Shortboarders and longboarders alike love the wave. There is always plenty of wave face and it's slow breaking unless it's big. It works best from 0.5m - 2m. On an average day, you will get 50m - 120m rides. On bigger days, you can definitely have longer rides. During 1.5m+ swells, the end section starts to deliver a quick barrel. Most days, it's surfable for beginners to advanced surfers.

## RIPTIDES

Riptides is another very popular wave. It's a peaky right hander, better suited to shortboards although it can be great for beginners when it's small. There is a hollow take off and has different bending sections. It will work from about 0.5m - 3m. On an average day, you will get 50m - 100m rides. It is surfable for most ability levels because there is a very deep channel right next to the wave for safety. That being said, caution is needed with the currents (*hence the name*) and the inner reef.

Twin peaks has a left and a right breaking off the house reef of the local island of Gulhi. It is a fickle wave with shallow sections and close out sections. The furthest corner of the wave named "Henry's" is the perfect spot for first-timers and children alike.
