PODIKIZHI

90 mins / USD 320

Podikizhi is the most effective detoxification treatment for the entire body. A unique mix of various herbal and medicated powders are bundled together in a muslin cloth. These poultices are then warmed and used to massage the entire body. Podikizhi promotes toxin elimination, increases the mobility of joints, and provides an effective relief from muscular aches and pains.

GREEN TEA SCRUB AND WRAP

90 mins / USD 220

Rejuvenate body and mind with fragrant green tea rich in antioxidants.

PIZICHIL (TAILA DHARA)

90 mins / USD 350

Meaning 'to squeeze', Pizichil is a world-famous Ayurvedic treatment known as the 'King's Treatment'. Experience a therapeutic body massage that balances the emotions and increases blood circulation. In this gentle therapy, warm oil is poured over the entire body to bring a wonderful sense of refreshment and relaxation.

NJAVARAKIZHI (PINDA SWEDA)

90 mins / USD 350

A highly rejuvenating treatment to relieve stress and strain, Pinda Sweda enhances physical consistency, strengthens the nervous system and improves the overall appearance of skin. After a liberal application of herbal oil over the body, small linen bags filled with cooked rice and herbal decoction are used to massage and induce sweat. The rice comes through the bolus to leave a thick paste on the body, which cools down rapidly and is left to nourish your skin.

HERBAL SHIRODHARA

60 mins / USD 250

Shirodhara brings instant calm and rejuvenation. The name is derived from the two Sanskrit words: 'shiro' meaning 'head' and 'dhara' meaning 'flow'. Intensely relaxing, a consistent flow of warm aromatic oil is poured on the forehead, directly above the third eye – the point believed to be the seat of human consciousness. As the oil flows over the scalp and through the hair, a blissful sensation of calm is experienced.

KIHAVAH SIGNATURE HEALING

90 mins / USD 250

Feel at one with your surrounds and the wellness elements of air, fire and earth. Submit to gentle soothing massages and the hypnotic sound of singing bowls.

UDWARTANA

90 mins / USD 300

Udwartana means 'to elevate' or 'to promote'. A stimulating and exfoliating therapy using a specially prepared herbal powder which is rubbed over the body to slough off dead skin cells and help reduce subcutaneous fat. This therapy effectively helps to improve blood circulation and reduce body weight.

ABHYANGA AND SHIRODHARA

90 mins / USD 300

A combination of an Ayurvedic-style massage and our signature third-eye treatment using warm, herb infused oils to induce a state of calmness. To begin, a full body application of medicated buttermilk (Takraadhara) or medicated milk (Ksheeradhara) is massaged onto the body. A steady stream of warm medicated oil is then continuously poured onto the forehead, a uniquely therapeutic treatment that restores sensations, revitalises the central nervous system, and relieves mental tension.

MARMAKIZHI MASSAGE

60 mins / USD 250

90 mins / USD 300

Marma energy zones are vital areas of the body. Marmakizhi is a traditional Ayurvedic massage that uses herbal Ayurvedic oil and appropriate pressure to stimulate these specific points. A small linen bundle, filled with medicated powder made from the roots of 12 herbal plants, is heated and applied all over the body to induce sweating, relieve pain, stiffness and to stimulate body organs and systems to clear blocked energies.

NASYA

60 mins / USD 180

Nasya is a healing therapy that combats the pollution we inhale and is also highly effective in treating headaches, sinusitis and migraines, as well as hormonal and physiological problems. A few drops of herbalised oil or powder are placed in the nose, while the face, shoulders and chest are massaged with specific herbal oils to induce perspiration.

KATIVASTHI

60 mins / USD 200

Kativasthi is a unique spinal herbal bath. A small herbal paste reservoir is created on the lower back, with the bare skin as the base. Specially prepared warm medicated oil is poured into this and allowed to remain there for 45 minutes. The medicinal properties are absorbed directly by the body and are very effective for any types of chronic or acute back pains, spinal disorders, lumbar spondylosis, sciatica and osteoporosis.

PICHU

60 mins / USD 200

A miraculous palliative treatment in Ayurveda that uses warm medicated oil for curing various degenerative ailments. Pichu can be performed on the head, neck, spine, hip, chest, knee and shoulders as per the state of illness. AESTHETIC FACIAL EXPERIENCES

DIAMOND MICRODERMABRASION

30 mins / USD 130

Slough away dead skin cells, reduce the size of pores, improve the appearance of sun damage, wrinkles, fine lines, age spots, acne scarring and other skin-related concerns. The advanced Diamond Microdermabrasion system renews overall skin tone and texture, and is strong enough to clear and exfoliate but gentle enough for the most sensitive of skins. This minimally invasive procedure increases blood flow and helps to produce collagen.

LED RED LIGHT THERAPY

30 mins / USD 120

LED therapy uses low-intensity light-emitting diodes (LEDs) in a process similar to photosynthesis (in which plants use chlorophyll to convert sunlight into cellular building blocks). The light stimulates the production of collagen and elastin, suppressing collagenase, the enzyme that breaks down collagen and accelerates ageing. The Bio-Synthesis system uses the latest technology and treatment principles that stem from extensive research, data and efficacy studies on photosynthesis conducted by NASA.

GALVANIC IONTOPHORESIS

30 mins / USD 140

Galvanic Iontophoresis therapy involves the use of mild electric currents, consisting of positive and negative ions, to refresh, stimulate and rejuvenate the skin. It uses iontophoresis to transport electronically charged particles (ions) into the skin. This advanced therapy promotes the absorption of products used on the skin, driving them deeper into the pores to increase hydration, circulation, radiance and firming. This helps reduce the appearance of fine lines and wrinkles, and gives a dewy fresh appearance. Recommended for most skin types, including sensitive skin.

PLATELET RICH PLASMA

1.5 hours / USD 380

The 'Vampire Facial' is popular for those seeking a natural method to rejuvenate their skin and stimulate healing. PRP is tissue regeneration with your own blood cells. Your blood platelets are harvested and treated to extract growth factors and specialised cells involved in the healing process (post-injury) and cell regeneration. This concentrated plasma is enriched with your own platelets, growth factors and natural stem cells. Platelets are blood cells with several crucial functions. They contain important growth factors that, when secreted, are responsible for tissue regeneration, increasing collagen production, initiating vascular re-growth, inducing cell differentiation and extra-cellular matrix formation. Growth factors and stem cells also increase cellular turnover and collagen production, which promotes youthful, glowing and radiant skin. When growth factors are stimulated by a PRP treatment, collagen production is boosted, helping to improve the appearance of age-related skin damage, including wrinkles, scarring and fine lines.

DERMAPEN MICRONEEDLING

1 hour / USD 280

Erase your skin's history and try one of the most popular anti-ageing treatments in the world. Microneedling has been used for centuries to produce microscopic channels as a way to regenerate skin cells and improve skin texture. Dermapen is an advanced skin needling treatment that increases collagen production and skin regeneration. It also increases product absorption x 1000. Dermapen increases collagen production up to 400% and leads to reorganisation of old collagen fibres and laying down of new collagen, elastin, and capillaries. It can also reduce the appearance of scars, wrinkles and lines.

BIO CELL FACIAL

1.5 hours / USD 610

Diamond Microdermabrasion · PRP Cell Rejuvenation · Galvanic Infusion · LED Red Light Therapy

The powerful PRP (active stem cells cultured from your own blood) repairs cells and encourages the growth of new ones. It activates deep tissue to tighten and firm the skin. The treatment also includes a Diamond Peel to deeply exfoliate the skin and LED Red Light Therapy to stimulate the growth of new collagen. The treatment cleans, exfoliates, tightens and hydrates, so it's a one-stop treatment for anti-ageing.
