An underwater photograph of a vibrant coral reef. The water is a deep, clear blue. In the foreground, there are large, colorful coral structures, including a prominent red and white branching coral and a large, textured red coral. Numerous small, dark fish are swimming throughout the water. Two divers are visible: one in the upper center, slightly out of focus, and another in the lower left, also out of focus. The overall scene is bright and lively, capturing the beauty of a healthy marine ecosystem.
